Search effectively?

- The **Keyword** field searches all fields.
- Use * as a wild card character: **jo*** finds Jones, Johnson, etc.
- To find a certain year (ex. 1879), use the Year field to find results from only that year. Use < or > to find years before or after others (ex.

How to read the Bible database information:

- Owners: are the people who originally owned the Bible.
- Current owner: in this example is identified as CDPL. It was donated to the library along with all rights. However, some families still retain ownership, but allowed CDPL to make digital copies to be included in the database. In those instances, current owner might be a family member.
- Date: refers to the publication date of the bible.
- Date range: refers to the hand-written historical information entered in the front of the bible, usually birthdates, deaths and marriages.
- Bible page images: Click on the blue highlighted link to see the digital images of the Detchon

Bible. These images represent a digital reproduction of a primary source.

- Notes: include information about the physical description of the Bible, where it is being stored and who donated the Bible.

- Transcription: CDPL transcribes all hand-written entries of each bible into a typewritten copy. CDPL only transcribes what is written: information is not added or subtracted. This is a digital transcription of the primary source.
