

# **Crawfordsville District Public Library, Crawfordsville, IN**

## **Request for Proposals (RFP)**

### **2023/2024 Two Websites and Logo/Branding**

#### **Note About Data Storage**

Our integrated library system (ILS) is hosted by a third party vendor, so all library patron information is stored on that vendor's servers. All library catalog searches and My Account processes occur within the ILS. As for membership information for the Friends of the Carnegie Museum, that information is also not stored within the website, so we will not need data storage services for this project.
